Let Me Know You're Alright/It's not that I/Feel unloved/It's just that I/Never loved myself/I'm torn apart/Right back at the start/It's not for me/It's not for/Give me a sign/To let me know you're alright/I regret/What I said/**Tonight**/Tonight/I'll feel alive/For the first time/In a long time/Like a bird without its wings/You learn to love the little things/Why can't I/Just live my life/It's always hard to pretend/And even harder to realize/Like a bird without its wings/You learn to love the little things/Woo!/**Honestly Honestly Hurts**/Honestly honesty hurts/Caught up in your landslide/I am your lies/Honestly honesty hurts/I was unaware/Feeling so scared/By the notions down inside/My emotions coincide/Honestly honesty hurts/**Quoting Oceans**/I'm quoting oceans/You're shouting earthquakes/I love to destroy/You hate to create/I'm making issues/Out of things that don't exist/How did I end up/Feeling like this/I'm quoting oceans/You're shouting earthquakes/I love to destroy/You hate to create/"**We Will Meet Again, Lucifer**"/Counting sheep/Isn't enough to make me fall asleep/And I guess/I'll never fix this hole in my chest/I tried my best/Two years gone/Feel like I don't belong/You were wrong/Lying awake/Thinking about all of my mistakes/And I guess/I'll never fix this hole in my chest/I tried my best/Two years gone/Feel like I don't belong/You were wrong/**Tanglelo's**/I can see you're alive/By the color in your eyes/But if you look into mine/You can tell that I'm dead inside/I wear my heart on my sleeve/I'm not what you thought or hoped I'd be/What did you see in me/Inside we separate/Tear apart what we've made/When will I be okay/Deep down inside you/You know you're a liar/And you will do anything/So you can just get some sleep/**I Hop On Everything I splash**/Let me go/I just wanna be/On my own/And I can't stand to see/You looking up to me/I promise you I will/Get in the way/I promise to stand still/And let you do your thing/Woo!/And I can't/Catch my breath/So tell me something/And pick up the pieces left/Set aside/And realized the pain that you caused in my life/And I will see you in hell/**Subclavian Notch**/Am I just a memory/That haunts you in your fucking dreams/Or was I just there for sympathy/You said that you needed me/I hate what you made me believe/You earned my trust/I sacrificed my self -esteem/You came clean/About the lying and the cheating/And you just like to watch me drown/I don't know what to do/I'm so burnt out just thinking about you/I'm moving on/On to better things/Than you could ever give/Me.
